### 1-PART EPOXY ACRYLIC CONCRETE & GARAGE FLOOR PAINT

**NO. 900**

#### PRODUCT INFORMATION

A high-performance, ready-to-use, single component water-based floor paint that resists hot tire pick-up and marring. The finish is resistant to household type chemicals, oil and gasoline, which reduces the need for maintenance of hard-to-clean interior or exterior floors. This durable, satin finish floor paint also resists scuffing, fading, cracking, peeling and blistering.

#### RECOMMENDED USES:

Interior or Exterior surfaces such as: Porous Concrete, Masonry, Stone and Brick. Ideal for horizontal surfaces such as: Garage Floors, Driveways, Basements and Porches. DO NOT use on vertical surfaces or areas subject to hydrostatic pressure. NOT for industrial use. DO NOT use on areas subject to fork-lifts.

| *Coverage:* | 300-500 Square Feet Per Gallon, depending on application method and substrate porosity. Does not include the loss of material from spraying. |

#### APPLICATION

**DO NOT THIN.** Intermix all cans of same product to ensure color uniformity. Stir before applying. Use product when air and surface temperatures are between 50°-90°F (10°-32°C). Apply a thin, even coat using a 3/8" nap roller cover, pad applicator or a nylon/polyester brush at a spread rate of 400-500 sq. ft. (37-46 m²) per gallon on smooth surfaces and 300-400 sq. ft. (28-37 m²) per gallon on rough surfaces. Allow first coat to dry 24 hours before deciding if a second coat is necessary. For uniformity apply a second coat (in a criss-cross direction). Airless spray is recommended for experienced applicators only. An annual touch-up may be required in areas subject to tire traffic.

#### APPLICATION TOOLS:

- **Brush:** Nylon/polyester
- **Roller:** Use 3/8"-1/2" nap cover on smooth surfaces and 1/2"-3/4" on rough, porous surfaces.
- **Air-less Spray:** At packaged consistency
  - **Tip:** .015" - .019"
  - **Filter:** 60 mesh
  - **Thinning:** DO NOT THIN
  - **Dry Time:** @ 77° & 50% RH
    - Dries to the touch in 2 hours.
    - 4 hours before recoating.
    - Allow surface to dry 24-48 hours before subjecting surface to heavy foot traffic.

#### CAUTIONS/LIMITATIONS:

- Protect from freezing.
- For best results, apply at temperatures between 50°F - 90°F. Temperatures above 90°F may affect the application such as drying to fast. Avoid painting in direct sun. NOTE: If the surface is hot to the touch it should be considered to hot to apply this coating.
- Avoid heavy traffic for 24 hours.
- DO NOT APPLY MORE THAN TWO COATS
- Allow two weeks before washing or cleaning for full cure.
- Shelf life under normal conditions is two years unopened.

#### CLEAN UP:

Brushes and other equipment can be cleaned with warm, soapy water. For disposal of empty containers and unused product, contact your household refuse collection service.

† **WARNING!** If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SEVERE ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hot line at 1-800-424-LEAD or log on to www.epa.gov/lead. **WARNING!** This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. **WARNING!** Sanding or scraping treated lumber may be hazardous; wear appropriate protection.

*This information is provided “as is” and no representations or warranties, either expressed or implied, or merchantability, fitness for a particular purpose or of any other nature are made with respect to this information or to any product referred to in this information.

For MSDS or to consult with a BEHR® Certified Coatings Professional, call 1-800-854-0133 Ext. 2 (U.S.A. only). ©2011 BEHR PROCESS CORPORATION Santa Ana, CA 92704 U.S.A.
**SURFACE PREPARATION:**

Mildew Stains: All surfaces must be clean of mold and mildew stains and dirt prior to coating. Remove mildew stains with BEHR® Premium Mold & Mildew Stain Remover No. 62 at full strength on exterior, mildew-stained surfaces of all types including: wood, concrete, masonry, stucco, stone, brick, vinyl and aluminum siding, composite, tile, plastic, fiberglass and metals. Apply using a pump sprayer, brush, mop or roller. Scrub the surface using a stiff bristle broom or scrub brush. One gallon of the product will treat 200-250 sq. ft. (19-23 m²). Allow the product to work for at least one minute to remove mildew stains. Do not allow the product to dry on the surface. Rinse the surface and surrounding area thoroughly with water from a garden hose using the nozzle at normal pressure, or use a pressure washer at a low setting (500-1200 PSI).

New and Uncoated Concrete or Masonry Surfaces: New concrete must cure for a minimum of 30 days. For proper penetration and adhesion of topcoat, use BEHR® Concrete & Masonry Cleaner & Etcher No. 991 to clean and etch the surface. Follow all label instructions. Apply BEHR® Concrete & Masonry Bonding Primer No. 880 to increase adhesion of topcoat to the surface. Follow all label instructions.

Painted, Stained or Sealed Concrete:
Option 1- To completely strip the entire surface, use BEHR® Concrete & Masonry Paint Stripper No. 992. Follow all label instructions.
Option 2- To recoat over an existing coating, remove any loose or peeling paint and scuff sand the surface. Use BEHR® Concrete & Masonry Degreaser & Cleaner No. 990 to clean previously coated surfaces in sound condition. Use BEHR® Concrete & Masonry Cleaner & Etcher No. 991 to clean and etch any bare concrete area. Follow all label instructions. Spot prime all bare concrete areas with BEHR® Concrete & Masonry Bonding Primer No. 880 to increase adhesion of topcoat to the surface. Follow all label instructions.

**GENERAL INFORMATION:**

**IMPORTANT! DO NOT OPEN CAN WITHOUT READING INSTRUCTIONS. WARNING!** This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm.

**WARNING! IRRITANT! HARMFUL IF SWALLOWED.** CONTAINS: ETHYLENE GLYCOL. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION.

To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH approved for organic vapor with P series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use.

**FIRST AID:** If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. **CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.**
**PRODUCT INFORMATION**

**BEHR® PREMIUM 2-PART EPOXY GARAGE FLOOR COATING** is a decorative high-performance, water-based concrete floor coating. It provides long-lasting protection against motor oil, gasoline, antifreeze, brake fluid, salt, and hot tire pick-up. This durable semi-gloss finish is easy-to-clean and also resists scuffing, fading, cracking, peeling and blistering. It requires no priming and once mixed, is ready for use, allowing up to 8 hours of working time (pot life). BEHR® PREMIUM 2-PART EPOXY GARAGE FLOOR COATING is formulated to withstand the harsh elements common to most garage floors, new & old, while maintaining an easy-to-clean, show room quality appearance.

**RECOMMENDED USES:**

Interior garage floors protected from the sun and other concrete pressure, surfaces treated with sealers, loose or peeling previously painted surfaces or loose or damage concrete.

</tr>
</tbody>
</table>

**APPLICATION:**

Do Not Thin Product. Use product when air and surface temperatures are between 50-95°F. While only one coat is recommended for most applications, a second coat may be applied for increased sheen and optimum performance (apply second coat in the opposite direction from the first coat). Optional: If planning to use the colored flakes, apply BEHR® Premium 2-Part Epoxy Garage Floor Coating in 3’ x 3’ (1 x 1 m) sections. Immediately toss the color flakes directly onto the wet painted surface. Refer to product label for application instructions.

**For Previously Coated Concrete (Oil or Water Base Finishes)**

Previously painted concrete may be repainted only if it has excellent adhesion to the floor. Remove any loose or peeling paint by sanding (medium grit paper) or wire brushing the surface. To completely remove all existing coating, use BEHR® Concrete & Masonry Paint Stripper No. 992. Dull glossy surfaces by scuff-sanding or using a chemical deglosser. The surface must be clean, dry and free of dust, dirt, grease, oil or other contaminants. Use BEHR® No. K-109924 CONCRETE CLEANER & ETCHER to clean the surface. Follow all label instructions. Rinse surface thoroughly using a garden hose with the nozzle set in a stream pattern. Allow the surface to dry completely. Excess residue may interfere with the adhesion of the BEHR® PREMIUM 2-PART EPOXY GARAGE FLOOR COATING. Wipe your fingers over the clean floor to check for dust or powder. If residue is visible on your fingers, repeat the rinsing step. Remove excess water with a squeegee or mop. Remove any remaining oil or grease spots on your concrete using BEHR® Concrete & Masonry Degreaser & Cleaner No. 990. Follow all label instructions. Note: The floor must be thoroughly cleaned, completely rinsed and dry for the coating to adhere properly to the surface.

**APPLICATION TOOLS:**

- **Brush:** Nylon/Polyester blend
- **Roller:** 3/8” nap roller cover.
- **Thinner:** Do Not Thin.

**CAUTIONS/LIMITATIONS:**

- Protect from freezing.
- For best results, apply at temperatures between 50°F - 90°F. Temperatures above 90°F may affect the application such as drying to fast. Avoid painting in direct sun. NOTE: If the surface is hot to the touch it should be considered to hot to apply this coating.
- Avoid heavy traffic for 72 hours.
- Shelf life under normal conditions is two years unopened.

**DRY TIME:**

- Dries to touch in two hours at 77°F and 50% humidity.
- The floor may be subjected to light foot traffic after 6-8 hours.
- Allow 24 hours before subjecting surface to heavy foot traffic or repositioning furniture.
- Allow at least 3 days drying before subjecting painted surface to automobile tires. Additional dry time is needed in cooler temperatures and higher humidity.
- Premature heavy traffic will cause coating failure, which may require spot recoating.
- Wait 7 days before rinsing or cleaning with a mild detergent.

**CLEAN UP:**

Clean all tools and equipment with clean water. For disposal of empty containers and unused product, contact your household refuse collection service.

*This information is provided “as is” and no representations or warranties, either expressed or implied, or merchantability, fitness for a particular purpose or of any other nature are made with respect to this information or to any product referred to in this information.

For MSDS or to consult with a BEHR® Certified Coatings Professional, call 1-800-854-0133 Ext. 2 (U.S.A. only). ©2011 BEHR PROCESS CORPORATION Santa Ana, CA 92704 U.S.A.
SURFACE PREPARATION:
New concrete must cure for a minimum of 30 days. For proper penetration and adhesion of topcoat, use BEHR® No. K-109924 Concrete Cleaner & Etcher (included in kit). Refer to product label for application instructions. Rinse surface well using a garden hose with the nozzle set in a stream pattern or pressure wash for best results. Allow the surface to dry completely. IMPORTANT: Excess residue may interfere with the adhesion of the BEHR® Premium 2-Part Epoxy Garage Floor Coating. Wipe your fingers over the clean floor to check for dust or powder. If either is visible on your fingers, repeat the rinsing step. Remove excess water with a squeegee or mop. Remove any remaining oil or grease spots on your concrete using BEHR® Concrete & Masonry Degreaser & Cleaner No. 990. Follow all label instructions.

WHERE NOT TO USE:
DO NOT apply on surfaces subject to hydrostatic pressure. All interior concrete floors are subject to possible moisture vapor rising from under the concrete, which may cause coating failure. Test for moisture by taping a 3’ x 3’ (1 x 1 m) piece of plastic directly to the concrete using duct tape on all edges. Allow the plastic to sit for 24 hours. If water droplets appear on the inside of the plastic after 24 hours or if the concrete is damp, the surface contains moisture and the floor should not be painted. Moisture problem must be corrected before coating. DO NOT apply over surfaces that have been treated with a concrete sealer or waterproofer. Test the surface by dripping a small amount of water onto the surface. If water beads and continues to stay on top, it indicates that a sealer is present and the BEHR® PREMIUM 2-PART EPOXY GARAGE FLOOR COATING may not adhere. The sealer must be removed before using this product. After stripping, re-test the surface for water absorbency. DO NOT use over loose or peeling previously painted surfaces. Test for loose, flaking paint by cutting an “X” in the paint with a single edge razor blade. Apply a piece of duct tape over the “X” and press firmly, then pull it off with an abrupt action. If the tape does not pull the paint from the surface, it can be coated. If the existing paint is removed, the loose paint should be removed down to a sound substrate using BEHR® Concrete & Masonry Paint Stripper No. 992. DO NOT use over loose or damaged concrete or if concrete dust is present. If the concrete is loose, chipping (spalled), or has concrete dust present, the coating will not adhere properly. Test for loose, flaking concrete by pressing a piece of masking or cellophane tape at various places, then pull it off with an abrupt action. If the tape does not pull the concrete from the surface, it can be coated. If the existing concrete is removed, the loose concrete must be removed down to a sound substrate. Loose or damaged concrete and cracks must be filled with a suitable concrete based patching material. Remove concrete dust using BEHR® Concrete & Masonry Degreaser & Cleaner No. 990. Follow all label instructions.

GENERAL INFORMATION:
IMPORTANT! DO NOT OPEN CAN WITHOUT READING INSTRUCTIONS. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! IRRITANT! HARMFUL IF SWALLOWED. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE WITH ADEQUATE VENTILATION. To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH approved for organic vapor with P series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.

WARNING! If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.
**SOLID COLOR CONCRETE STAIN**

**NO. 800 WHITE**

**PRODUCT INFORMATION**

BEHR® SOLID COLOR CONCRETE STAIN is a durable, water repellent, solid color stain. It is designed to help protect and enhance both interior and exterior, and vertical and horizontal, concrete surfaces. This siliconized, 100% acrylic formula, forms a strong, long-lasting opaque film on properly prepared surfaces.

**RECOMMENDED USES:**

Use on properly prepared, interior or exterior surfaces, including: concrete, masonry walls, basements, patios, sidewalks, driveways*, garage floors*, tennis courts, cement blocks, pillars and brick. Do not use on surfaces subject to hydrostatic pressure.

*Driveways and garage floors - Lack of proper surface preparation and/or excessive application can lead to automobile tires lifting the product from the surface.

**PRODUCT SPECIFICATIONS:**

- **Tint Bases/Max Tint Load:**
  - No. 800 White 124 oz / 6 oz
  - No. 830 Deep Base 116 oz / 14 oz
- **Sheen:** 5-10 @85°
- **Vehicle Type:** Siliconized 100% Acrylic
- **Weight per Gallon:** 10.0 +/- 0.2 lbs./gal
- **% Solids:**
  - By Volume: 28.9 +/- 2%
  - By Weight: 40.5 +/- 2%
- **VOC:** <100 g/l
- **Flash Point:** Not Applicable
- **Viscosity:** 60-80 KU
- **Recommended Film Thickness:**
  - Wet: 4.0 Dry: 1.2 mils @ 400 SFPG
  - Wet: 2.7 Dry: 0.8 mils @ 600 SFPG
- **Coverage:** 400-600 Square Feet Per Gallon depending on application method and substrate porosity. Does not include the loss of material from spraying.

**APPLICATION:**

- **Brush:** Nylon/polyester
- **Roller:** Use 1/4”-3/8” nap cover on smooth surfaces and 1/2”-3/4” on rough, porous surfaces.
- **Airless Spray:** At packaged consistency
  - **Tip:** 015” - .017”
  - **Filter:** 60 mesh
- **Thinning:** (If required) No more than 1/2 pint of water per gallon.
- **Dry Time:**
  - @ 77° & 50% RH
  - Longer dry time may be required in cooler temperatures and higher humidity.
  - † To Touch: 1 hour
  - † To Recoat: 2-4 hours
  - † Full Cure: 2 weeks

**RECOMMENDED PRIMER / SYSTEMS:**

New or uncoated Masonry:

All surfaces must be clean, free of dust, chalk, oil, grease, wax, polish, mold and mildew stains, loose and peeling paint, rust and all other foreign substances.

- Behr Concrete & Masonry Bonding Primer No. 880

**CAUTIONS/LIMITATIONS:**

- Protect from freezing.
- For best results, apply at temperatures between 50°F - 90°F. Temperatures above 90°F may affect the application such as drying to fast. Avoid painting in direct sun. NOTE: If the surface is hot to the touch it should be considered hot to hot to apply this coating.
- Avoid heavy traffic for 24 hours.
- Allow two weeks before washing or cleaning for full cure.
- Shelf life under normal conditions is two years unopened.

**CLEAN UP:**

Clean all tools and equipment with soap and water. To recycle or dispose of paint, contact your household refuse collection service.

† **WARNING!** If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hot line at 1-800-424-LEAD or log on to www.epa.gov/lead.

† **WARNING!** This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.
SURFACE PREPARATION:

All surfaces must be clean, free of dust, chalk, oil, grease, wax, polish, mold and mildew stains, loose and peeling paint, rust, and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer and allow drying.

Mildew Stains: All surfaces must be clean of mold and mildew stains and dirt prior to coating. Remove mildew stains with BEHR® Premium Mold & Mildew Stain Remover No. 62 at full strength on exterior, mildew-stained surfaces of all types including: wood, concrete, masonry, stucco, stone, brick, vinyl and aluminum siding, composite, tile, plastic, fiberglass and metals. Apply using a pump sprayer, brush, mop or roller. Scrub the surface using a stiff bristle broom or scrub brush. One gallon of the product will treat 200-250 sq. ft. (19-23 m²). Allow the product to work for at least one minute to remove mildew stains. Do not allow the product to dry on the surface. Rinse the surface and surrounding area thoroughly with water from a garden hose using the nozzle at normal pressure, or use a pressure washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the wood. Prolonged exposure on painted surfaces may damage finish. Use the product at full strength. Interior: Use one part BEHR® Premium Mold & Mildew Stain Remover No. 62 to three parts water (1:3 dilution). DO NOT USE FULL STRENGTH. Avoid contact with clothing, carpet and fabrics. Apply using a clean cloth or sponge. Thoroughly rinse the surface with fresh water. Prolonged exposure on painted surfaces may damage finish.

Masonry: Stucco, Concrete, Cut Masonry Units (CMUs), Split-Faced Block: The oil film on new, galvanized metal must be removed before it is painted. Remove oil film with a detergent and water solution. For better paint adhesion, sand the surface with sandpaper, steel wool, or by using BEHR®Concrete & Masonry Cleaner & Etcher No. 991. Clean by scrubbing the surface with a detergent and water solution, followed by a thorough rinsing with clean water. New Surfaces: Wipe down clean metal surfaces prior to painting with a vinegar solution, one-part vinegar to five parts water (1:5). Bare metal must be primed the same day it is cleaned. Metal: Remove all rust and mill scale using sandpaper, steel wool, abrasive blasting, or other abrading methods to create a profile on the metal’s surface. Clean the metal by scrubbing the surface with a detergent and water solution, followed by a thorough rinsing with clean water. Bare metal must be coated the same day it is cleaned.

Masonry: Cement Composition Panels/Siding, Exterior Insulation and Finish Systems (EIFS) or Synthetic Stucco:

New: All masonry surfaces must be cured at least 30 days before painting. The pH must be 10.0 or lower prior to coating. All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the substrate. Previously Painted Surface: All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer and allow drying.

GENERAL INFORMATION:

IMPORTANT! DO NOT OPEN CAN WITHOUT READING INSTRUCTIONS. FOR TINT BASES – DO NOT USE WITHOUT THE ADDITION OF TINTING COLORANTS. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! IRRITANT! HARMFUL IF SWALLOWED. CONTAINS: ETHYLENE GLYCOL. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION. To avoid breathing vapors, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH approved for organic vapor with P series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.

TECHNICAL DATA SHEET

SEMI-TRANSIENT CONCRETE STAIN
NO. 850

PRODUCT INFORMATION

BEHR® SEMI-TRANSIENT CONCRETE STAIN provides the variation of color found in some natural stone. Surface imperfections, concrete composition, texture and application technique will affect the finished appearance. For a uniform solid color, use BEHR® SOLID COLOR CONCRETE STAIN NO. 800.

RECOMMENDED USES:

For use on uncoated and unsealed, properly prepared, interior or exterior, patios, pavers, driveways*, walkways*, garage floors* and other concrete floors.* The composition of concrete varies; therefore, the lack of proper surface preparation and/or excessive application can lead to automobile tires lifting the product from the surface. For added protection, use BEHR® WET-LOOK SEALER NO. 985 for a high-gloss finish or BEHR® LOW-LUSTRE SEALER NO. 986 for a low-gloss finish. Allow stain at least 4 hours to dry before topcoating per label instructions.

PRODUCT SPECIFICATIONS:

| Zahn#: | 35-55 KU |
| Recommended Film Thickness: | Wet: 9.1 Dry: 1.6 mils @ 175 SFPG Wet: 4.6 Dry: 0.8 mils @ 350 SFPG |
| Coverage: | 175-350 Square Feet Per Gallon, depending on application method and substrate porosity. Does not include the loss of material from spraying. |

APPLICATION:

Use product when temperature is between 50–90°F (10–32°C). Do not apply in direct sunlight. Apply to dry concrete. Do not apply if rain or heavy dew is expected within 24 hours. Apply stain in small concrete sections approximately 4' by 4' (1.2 m x 1.2 m). Work quickly and feather edges. Apply with a high quality pump sprayer at a fine spray setting using a circular motion. Immediately after spraying, back-roll with a 3/8” nap roller or pad applicator to achieve a more even appearance. Apply at a spread rate of 175-250 sq. ft. (16-23 m²) per gallon depending on the porosity and texture of the surface. Allow first coat to dry for 4 hours before deciding if a second coat is necessary. An additional coat will provide a darker and more uniform color. Apply second coat at a spread rate of 125-250 sq. ft. (11-23 m²) per gallon. Airless spray is recommended for experienced applicators only. Note: Horizontal surfaces may be subject to premature wear. Periodic touch-ups may be necessary.

APPLICATION TOOLS:

Brush: Nylon/polyester
Roller: Use 3/8”-1/2” nap cover on smooth surfaces and 1/2”-3/4” on rough, porous surfaces.
Air-less Spray: At packaged consistency
Tip: 015”
Filter: 60 mesh
Thinning: (If required) No more than 1/2 pint of water per gallon.
Dry Time: 77° & 50% RH
• Dries to the touch in 1 hour.
• 4 hours before recoating.

CAUTIONS/LIMITATIONS:

• Protect from freezing.
• For best results, apply at temperatures between 50°F - 90°F. Temperatures above 90°F may affect the application such as drying to fast. Avoid painting in direct sun. NOTE: If the surface is hot to the touch it should be considered to hot to apply this coating.
• Avoid heavy traffic for 24 hours.
• Allow two weeks before washing or cleaning for full cure.
• Shelf life under normal conditions is two years unopened.

CLEAN UP:

Brushes and other equipment can be cleaned with warm, soapy water. For disposal of empty containers and unused product, contact your household refuse collection service.

† WARNING! If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SEVERE ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hot line at 1-800-424-LEAD or log on to www.epa.gov/lead. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.

For MSDS or to consult with a BEHR® Certified Coatings Professional, call 1-800-854-0133 Ext. 2 (U.S.A. only). ©2011 BEHR PROCESS CORPORATION Santa Ana, CA 92704 U.S.A.
SURFACE PREPARATION:

Masonry: New concrete must cure for a minimum of 30 days. Remove old coating or sealer, if present, using BEHR® Concrete & Masonry Paint Stripper No. 992. Follow all label instructions. Test: Sprinkle a few drops of water onto the surface. If water is quickly absorbed, the surface is ready. If not absorbed, re-etch. For proper penetration and adhesion of topcoat, use BEHR® Concrete & Masonry Cleaner & Etcher No. 991 to clean and etch the surface. Follow all label instructions. Remove mildew stains with BEHR® Premium Mold & Mildew Stain Remover No. 62. Follow all label instructions. Apply BEHR® Concrete & Masonry Bonding Primer No. 880 to increase adhesion of topcoat to the surface. Follow all label instructions. Do not thin. Intermix cans of same products to ensure color uniformity. STIR thoroughly before and during application.

GENERAL INFORMATION:

IMPORTANT! DO NOT OPEN CAN WITHOUT READING INSTRUCTIONS. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! IRRITANT! HARMFUL IF SWALLOWED. CONTAINS: ETHYLENE GLYCOL. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION. To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH approved for organic vapor with P series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.
**PRODUCT INFORMATION**

**BEHR® CONCRETE & MASONRY PROTECTOR & WATERPROOFER** is a premium, interior/exterior, waterproofing formula that uses the latest water-based, silicone technology designed to penetrate surfaces up to 1/2”. This waterproofer creates a barrier inside the surface that keeps water out, but lets trapped water vapors escape; reducing corrosion, spalling, efflorescence and freeze-thaw damage. It reduces staining due to mold and mildew, and ensures greater durability of the surface. The protection is not worn away with normal use. It protects long after the water beading is gone.

**RECOMMENDED USES:**

Use on horizontal and vertical, uncoated concrete and masonry surfaces, such as: concrete block, pavers, stucco, brick, unglazed tiles, exposed aggregate concrete, sandstone and slate. Not recommended for use on areas subject to hydrostatic pressure such as basement walls or floors.

For MSDS or to consult with a BEHR® Certified Coatings Professional, call 1-800-854-0133 Ext. 2 (U.S.A. only). ©2011 BEHR PROCESS CORPORATION Santa Ana, CA 92704 U.S.A.
SURFACE PREPARATION:

All surfaces must be clean, free of dust, chalk, oil, grease, wax, polish, mold and mildew stains, loose and peeling paint, rust, and all other foreign substances.

Mildew Stains: All surfaces must be clean of mold and mildew stains and dirt prior to coating. Remove mildew stains with BEHR® Premium Mold & Mildew Stain Remover No. 62 at full strength on exterior, mildew-stained surfaces of all types including: wood, concrete, masonry, stucco, stone, brick, vinyl and aluminum siding, composite, tile, plastic, fiberglass and metals. Apply using a pump sprayer, brush, mop or roller. Scrub the surface using a stiff bristle broom or scrub brush. One gallon of the product will treat 200-250 sq. ft. (19-23 m²). Allow the product to work for at least one minute to remove mildew stains. Do not allow the product to dry on the surface. Rinse the surface vigorously and rinse with a garden hose or a power washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the substrate. Prolonged exposure on painted surfaces may damage finish.

Painted Surface: All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer. Rinse thoroughly with water and allow drying.

Masonry: Stucco, Concrete, Cut Masonry Units (CMUs), Split-Faced Block:

New: All masonry surfaces must be cured at least 28 days before painting. The pH must be 10.0 or lower prior to coating. Smooth masonry may require an adequate profile for adhesion. For all other smooth concrete, create a profile using BEHR® Concrete & Masonry Cleaner & Etcher No. 991 or with mechanical means. Use BEHR® Concrete & Masonry Degreaser & Cleaner No. 990 to remove loose aggregate and debris. Scrub vigorously into the surface with a plastic brush broom or power washer. Rinse thoroughly with water and allow drying.

Masonry: Cement Composition Panels/Siding, Exterior Insulation and Finish Systems (EIFS) or Synthetic Stucco: New: All masonry surfaces must be cured at least 30 days before painting. The pH must be 10.0 or lower prior to coating. All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the substrate. Previously Painted Surface: All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer and allow drying.

GENERAL INFORMATION:

IMPORTANT! DO NOT OPEN CAN WITHOUT READING INSTRUCTIONS. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm.

WARNING! IRRITANT! HARMFUL IF SWALLOWED. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION. To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH-approved for organic vapor with a P-Series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15-20 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.

WET-LOOK SEALER
NO. 985 HIGH GLOSS & NO. 986 LOW LUSTRE

PRODUCT INFORMATION
BEHR® WET-LOOK SEALER’s are a clear, non-yellowing, high solids, acrylic-based masonry sealer. It is formulated to seal, protect and beautify concrete and masonry surfaces with a high gloss, wet-look finish. BEHR WET-LOOK SEALER NO. 985 is also an excellent topcoat for paints and stains.

RECOMMENDED USES:
Use on Previously Coated or Uncoated, Vertical or Horizontal, Interior or Exterior surfaces such as: pavers, concrete, mexican tile and unglazed tiles, brick, aggregate, natural and artificial stone, masonry and stucco. Not recommended for use on wood, metal, granite, marble, terrazzo, areas immediately adjacent to pools or areas subject to hydrostatic pressure. Do not use over oil-based products. CAUTION: Sealed surfaces may become slippery when wet. Use caution when walking on surface when moisture is present. Apply in sections so wet material does not have to be walked on during application.

PRODUCT SPECIFICATIONS:
Bases:
*No. 985 Wet Look High Gloss 128 oz
No. 986 Wet Look Low Lustre 128 oz
Vehicle Type: Acrylic
*Weight per Gallon: 8.5 +/- 0.2 lbs./gal
*% Solids:
By Volume: 30.5 +/- 2%
By Weight: 32.9 +/- 2%
VOC: <100 g/l
Flash Point: Not Applicable
Viscosity: 20-35 sec, #2 Zahn Cup
*Recommended Film Thickness:
Wet: 8.0 Dry: 2.4 mils @ 200 SFPG
Wet: 2.3 Dry: 0.7 mils @ 700 SFPG
*Coverage: 200-700 Square Feet Per Gallon, depending on application method and substrate porosity. Does not include the loss of material from spraying.

APPLICATION:
DO NOT THIN: Stir or shake before applying. Use product when temperature is between 50-80°F (10-27°C). Do not apply in direct sunlight. Do not apply to wet surfaces or if rain or heavy dew is expected within 24 hours. Apply a thin coat using a nylon/polyester brush, 3/8-1/2” nap roller or a high quality pump sprayer with an adjustable tip at a spread rate of 150-300 sq. ft. (14-28 m²) per gallon. Spread rate is highly dependent on surface roughness and porosity. If sprayed, backroll for uniform thickness. Allow first coat to dry 4 hours, then apply a second coat at a spread rate of 300-400 sq. ft. (28-37 m²) per gallon. Additional coats (no more than 4) may be added for a higher gloss and added protection. Note: Horizontal surfaces may be subject to excessive wear. Therefore, periodic touch-ups may be necessary.

APPLICATION TOOLS:
Brush: Nylon/polyester
Roller: Use 3/8”-1/2” nap cover on smooth surfaces and 1/2”-3/4” on rough, porous surfaces.
Air-less Spray: At packaged consistency.
Tip: 015”
Filter: 60 mesh
Thinning: DO NOT THIN
Dry Time: @ 77° & 50% RH
• Dries to the touch in 1 hour.
• 4 hours before recoating.
• Allow surface to dry 24-48 hours before subjecting surface to heavy foot traffic.

CAUTIONS/LIMITATIONS:
• Protect from freezing.
• For best results, apply at temperatures between 50°F - 90°F. Temperatures above 90°F may affect the application such as drying to fast. Avoid painting in direct sun. NOTE: If the surface is hot to the touch it should be considered to hot to apply this coating.
• Avoid heavy traffic for 24-48 hours.
• Allow 72 hours before repositioning furniture
• Allow two weeks before washing or cleaning for full cure.
• Shelf life under normal conditions is two years unopened.

CLEAN UP:
Brushes and other equipment can be cleaned with warm, soapy water. For disposal of empty containers and unused product, contact your household refuse collection service.

†WARNING! If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SEVERE ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hot line at 1-800-424-LEAD or log on to www.epa.gov/lead. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.

Revised 8/2011
SURFACE PREPARATION:

Mildew Stains: All surfaces must be clean of mold and mildew stains and dirt prior to coating. Remove mildew stains with BEHR® Premium Mold & Mildew Stain Remover No. 62 at full strength on exterior, mildew-stained surfaces of all types including: wood, concrete, masonry, stucco, stone, brick, vinyl and aluminum siding, composite, tile, plastic, fiberglass and metals. Apply using a pump sprayer, brush, mop or roller. Scrub the surface using a stiff bristle broom or scrub brush. One gallon of the product will treat 200-250 sq. ft. (19-23 m²). Allow the product to work for at least one minute to remove mildew stains. Do not allow the product to dry on the surface. Rinse the surface and surrounding area thoroughly with water from a garden hose using the nozzle at normal pressure, or use a pressure washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the wood. Prolonged exposure on painted surfaces may damage finish. Use the product at full strength.

Masonry: Concrete, Cut Masonry Units (CMUs), Split-Faced Block: New and Uncoated: All masonry surfaces must be cured at least 30 days before painting. The pH must be 10.0 or lower prior to coating. Smooth masonry may require an adequate profile for adhesion. For all other smooth concrete, create a profile using BEHR® Concrete & Masonry Cleaner & Etcher No. 991 or with mechanical means. Remove loose aggregate and debris using BEHR® Concrete & Masonry Degreaser & Cleaner No. 990. Scrub vigorously into the surface with a plastic brush broom or power washer. Rinse thoroughly with water and allow to dry.

GENERAL INFORMATION:

IMPORTANT! DO NOT OPEN CAN WITHOUT READING INSTRUCTIONS. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm.

WARNING! IRRITANT! HARMFUL IF SWALLOWED. CONTAINS: ETHYLENE GLYCOL. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION.

To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH approved for organic vapor with P series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use.

FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately.

CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.
**PRODUCT INFORMATION**

BEHR® CONCRETE & MASONRY BONDING PRIMER is a high-performance, ready-to-use, water-based pre-treatment, designed specifically to promote optimum adhesion. When properly applied, provides a sound surface with excellent resistance to water, alkali and efflorescence. The primer will appear slightly milky in the container, but it will dry to a clear, natural look. This specially formulated bonding primer can be used to improve bonding whenever a masonry coating is to be applied, such as a BEHR PREMIUM PLUS® PORCH & FLOOR PAINT, BEHR® SOLID COLOR CONCRETE STAIN, BEHR® SEMI-TRANSPARENT CONCRETE STAIN, or BEHR® 1-PART EPOXY ACRYLIC CONCRETE & GARAGE FLOOR PAINT.

**RECOMMENDED USES:**

Use on uncoated, interior or exterior surfaces, including concrete, masonry, stucco, cinder block and any porous stone or brick. Not designed for use on wood, metal or silicone treated surfaces. Do not use on coated surfaces. Use only on porous surfaces.

NOTE: Some surfaces may appear slightly darker after product dries.

**CAUTIONS/LIMITATIONS:**

- Protect from freezing.
- USE ON NEW OR UNCOAT SURFACES ONLY
- For best results, apply at temperatures between 50°F - 90°F. Temperatures above 90°F may affect the application such as drying too fast. Avoid painting in direct sun. NOTE: If the surface is hot to the touch it should be considered to hot to apply this coating.
- Avoid heavy traffic for 24 hours.
- Shelf life under normal conditions is two years unopened.
- Must be top-coated within 30 days.

**CLEAN UP:**

Use any commercial brush cleaner. Note: Do not use soap and water to clean brushes or other applications, as they will become gummy.

To recycle or dispose of paint, contact your household refuse collection service.
CONCRETE & MASONRY BONDING PRIMER

NO. 880

SURFACE PREPARATION:

All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer and allow drying.

Mildew Stains: All surfaces must be clean of mold and mildew stains and dirt prior to coating. Remove mildew stains with BEHR® Premium Mold & Mildew Stain Remover No. 62 at full strength on exterior, mildew-stained surfaces of all types including: wood, concrete, masonry, stucco, stone, brick, vinyl and aluminum siding, composite, tile, plastic, fiberglass and metals. Apply using a pump sprayer, brush, mop or roller. Scrub the surface using a stiff bristle broom or scrub brush. One gallon of the product will treat 200-250 sq. ft. (19-23 m²). Allow the product to work for at least one minute to remove mildew stains. Do not allow the product to dry on the surface. Rinse the surface and surrounding area thoroughly with water from a garden hose using the nozzle at normal pressure, or use a pressure washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the substrate. Prolonged exposure on painted surfaces may damage finish. Use the product at full strength. Interior: Use one part BEHR® Premium Mold & Mildew Stain Remover No. 62 to three parts water (1:3 dilution). DO NOT USE FULL STRENGTH. Avoid contact with clothing, carpet and fabrics. Apply using a clean cloth or sponge. Thoroughly rinse the surface with fresh water. Prolonged exposure on painted surfaces may damage finish.

Masonry: Stucco, Concrete, Cut Masonry Units (CMUs), Split-Faced Block:

New: All masonry surfaces must be cured at least 28 days before painting. The pH must be 10.0 or lower prior to coating. All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the substrate. Previously Painted Surface: All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer and allow drying.

Masonry: Cement Composition Panels/Siding, Exterior Insulation and Finish Systems (EIFS) or Synthetic Stucco:

New: All masonry surfaces must be cured at least 30 days before painting. The pH must be 10.0 or lower prior to coating. All surfaces must be clean, free of dust, chalk, mold and mildew stains, loose and peeling paint and all other foreign substances. Clean surfaces with a detergent and water solution by scrubbing the surface vigorously and rinse with a garden hose or a power washer at a low setting (500-1200 PSI). DO NOT USE HIGH PRESSURE as this may harm the substrate. Prolonged exposure on painted surfaces may damage finish. Use the product at full strength. Interior: Use one part BEHR® Premium Mold & Mildew Stain Remover No. 62 to three parts water (1:3 dilution). DO NOT USE FULL STRENGTH. Avoid contact with clothing, carpet and fabrics. Apply using a clean cloth or sponge. Thoroughly rinse the surface with fresh water. Prolonged exposure on painted surfaces may damage finish.

GENERAL INFORMATION:

IMPORTANT! DO NOT OPEN CAN WITHOUT READING INSTRUCTIONS. PRODUCT DRIES CLEAR – IT WILL LOOK MILKY IN CAN AND AT INITIAL APPLICATION. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! IRRITANT! HARMFUL IF SWALLOWED. CONTAINS: ETHYLENE GLYCOL. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION. To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH-approved for organic vapor with a P-Series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15-20 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.

† WARNING! If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hot line at 1-800-424-LEAD or log on to www.epa.gov/lead. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.

**TECHNICAL DATA SHEET**

**NON-SKID FLOOR FINISH ADDITIVE**

**NO. 970**

**PRODUCT INFORMATION**

BEHR PREMIUM™ NON-SKID FLOOR FINISH ADDITIVE is a unique texture additive, which, when mixed with a finished product container of paint or solid color stain creates a slip-resistant coating for all types of interior and exterior floor surfaces. This product will not change the color of the floor coating.

**RECOMMENDED USES:**

BEHR PREMIUM floor coating products: Porch & PATIO Floor Paint, 1-Part Epoxy, SOLID COLOR CONCRETE STAIN. APPLICATION:
Garage Floors • Patios • Stairs • Basements • Driveways • Decks • Walkways • Pool Decks.

**MIXING:**

Finished product container size: for 1 quart, use 1/4 pouch; for 1 gallon, use 1 pouch; for 5 gallons, use 5 pouches.

**APPLICATION INSTRUCTIONS:**

Add the proper amount of BEHR® NON-SKID FLOOR FINISH ADDITIVE to any latex or oil-based floor coating finish product container and stir thoroughly until dispersed uniformly. Stir occasionally during application. Apply coating to floor surface using a brush or roller. Refer to all paint and stain manufacturer’s product labels for specific instructions on surface preparation and finish application. If applying more than one coat of floor finish, mix NON-SKID FLOOR FINISH ADDITIVE into the final topcoat. Adding a non-skid additive will reduce the lifespan of the product; therefore, retain any leftover paint for periodic maintenance re-coating.

This product, if added according to label directions, helps to prevent slipping by providing a slip-resistant coating. However, Behr does not warrant that this product will prevent accidents as described in the limited warranty below.

**CAUTION:** May cause eye and skin irritation.

**WARNING! IRRITANT! HARMFUL IF SWALLOWED. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF DUST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION.** To avoid breathing vapors or spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. Do not use in an unventilated area. A respirator (NIOSH approved for organic vapor with P series particulate prefilter) will offer additional protection; however, obtain professional advice before using a respirator. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling.

**FIRST AID:** If swallowed, call a physician immediately. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water.

**CAUTION:** KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.

**PRODUCT INFORMATION**

Transform your concrete floor into a beautiful surface that has the look of granite or terrazzo. BEHR® Color Flakes are available in a variety of color combinations to match any décor, adding beauty and elegance to residential and commercial floors. Turn that boring concrete floor into a work of art.

**RECOMMENDED USES:**

Use on Interior/Exterior surfaces such as: garage floors, driveways, basements, patios, sidewalks, laundry rooms and pool/cool decks. BEHR Color Flakes help to hide dirt and surface imperfections and can be used with water and oil-based coatings.

**APPLICATION:**

Important: Toss flakes evenly over a 250 sq. ft. area. Work in 1 x 1 m (3’ x 3’) sections to ensure that the color flakes are evenly distributed. Apply color flakes directly onto the wet painted surface. Toss flakes evenly over a 250 sq. ft. area. Work in 1 x 1 m (3’ x 3’) sections to ensure that the color flakes are evenly distributed. Apply color flakes directly onto the wet painted surface. Let them distribute evenly on the wet painted surface. Throw the color flakes up into the air and let them distribute evenly on the wet painted surface. Repeat these steps until you have finished the entire garage floor.

**CLEAN UP:**

Clean all tools and equipment with clean water. For disposal of empty containers and unused product, contact your household refuse collection service.

† WARNING! If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead. WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.

**SURFACE PREPARATION:**

All surfaces must be clean, free of dust, chalk, oil, grease, wax, polish, mold and mildew stains, loose and peeling paint, rust and all other foreign substances.

**Mildew:** All surfaces must be clean of mold and mildew stains and dirt prior to coating.

**Masonry:** All masonry surfaces must be cured at least 30 days before painting. The pH must be 10.0 or lower prior to coating. Smooth masonry may require an adequate profile for adhesion. For all other smooth trowel concrete, create a profile using BEHR® Concrete & Masonry Cleaner & Etcher No. 991 or with mechanical means. Remove loose aggregate and debris using BEHR® Concrete & Masonry Degreaser & Cleaner No. 990. Scrub vigorously into the surface with a plastic brush, broom or power washer. Rinse thoroughly with water and allow to dry.

---

**GENERAL INFORMATION:**

WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm.

WARNING! IRRITANT! HARMFUL IF SWALLOWED. CONTAINS: ETHYLENE GLYCOL. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING IN VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION.

To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH-approved for organic vapor with a P-Series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. FIRST AID: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15-20 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. CAUTION: KEEP OUT OF REACH OF CHILDREN – DO NOT TAKE INTERNALLY.
